Summary

Passionate Frontend Developer focused on building dynamic, user-centric web applications using React.js. Currently expanding skills in backend development (MERN stack) and Python for data science and artificial intelligence.

Skills

- **Frontend Development:** HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS
- **Backend Basics:** PHP, SQL, Databases
- **Programming Languages:** Python, C, C++
- **Tools & Technologies:** Git, GitHub

Education

Bachelor of Science in Software Engineering
University of Management and Technology, Lahore
2022 – 2026 | Current CGPA: 3.25

Intermediate in Computer Science (XII)
Govt. Islamia College, Civil Lines, Lahore
Completed 2022 | 72%

Matriculation in Computer Science (X)
Allied School, Lahore
Completed 2020 | 76%

Projects

Modern Phonebook Web App

- Developed an online phonebook application with user registration, login, and contact management features.
- **Live Demo:** [Phonebook App](#)

Todo Master (React.js)

- Built a responsive and clean to-do list app with React.js for managing daily tasks efficiently.
- **Live Demo:** [Todo Master](#)

Shopping List Web App

- Created a lightweight, user-friendly web application to create and manage shopping lists.
- **Live Demo:** [Shopping List](#)

Certifications

- **The Complete Web Development Bootcamp** – Udemy (Instructor: Dr. Angela Yu)
- **Data Structures & Algorithms** – Udemy (Instructor: Abdul Bari)
- **100 Days of Code: Python Bootcamp** – Udemy (Instructor: Dr. Angela Yu)

Achievements

- Uploaded multiple projects on GitHub showcasing frontend and early full-stack development capabilities.
- Actively learning backend technologies (Node.js, Express.js, MongoDB) to complete the MERN stack.
- Enthusiastic about Web Development, Data Science, and Artificial Intelligence.
